ROTR Price = Recommended On the Road Price.

* All prices (Retail, Delivery and ROTR) are recommended by Volkswagen Ireland.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. WLTP replaces the previous NEDC test method. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

¹ VRT Bands and rate of Annual Road tax are valid as of 1st April 2020 and calculated from the correlated NEDC figure derived from WLTP for cars produced from CW48/2019 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 1st May 2020. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

Emission class	EURO 6	EURO 6		EURO 6		EURO 6	

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. WLTP replaces the previous NEDC test method. The WLTP Min. value refers to the minimum values of the standard entry version excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. The WLTP Max. value refers to the maximum value achieved considering optional extras. To discover exact values please configure your desired vehicle at please visit volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 1st May 2020. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.
